PROJECTS

Sales Data Analysis Dashboard

- Analyzed 10,000+ sales records to identify revenue trends and business drivers
- Built interactive dashboard using Power BI and Excel for KPI tracking
- Identified top-performing regions contributing 40%+ of total revenue
- Discovered seasonal demand patterns improving forecasting decisions
- Recommended pricing and inventory strategies to optimize business performance

Phishing URL Detection Analysis

- Performed feature analysis on phishing dataset using Python (Pandas)
- Identified key indicators such as URL length, domain age, and redirects
- Cleaned and structured dataset for machine learning readiness
- Built visualizations to highlight risk patterns and anomalies

User Behavior Analysis (App/Data Insights)

- Analyzed user interaction data using Python and SQL queries
- Identified user drop-off points, improving understanding of engagement funnel
- Segmented users based on behavior patterns for targeted improvements
- Suggested UI/UX enhancements leading to better retention strategy design

EDUCATION

Bachelor of Technology in Computer Science Engineering

Sister Nivedita University, Kolkata

- GPA: 3.0, Relevant Courses: Data Structures, Web Dev, Databases, Software Engineering, Databases, Statistics, Machine Learning

CERTIFICATES

- **AWS Cloud Technical Essentials**
- **Full Stack Web Development (MERN Stack)**
- **IBM Data Science Professional Certificate (Coursera)**
